RE: Advice No. 20-13, Compliance Filing of Schedule 136 Oregon Community Solar Program Cost Recovery Mechanism Update

The Public Utility Commission of Oregon approved the following sheets to PGE's Retail Tariff which were effective on **June 7, 2020**:

Thirty Third Revision of Sheet No. 1-3
Third Revision of Sheet No. 136-1
First Revision of Sheet No. 136-2
Original Sheet No. 136-3

PGE previously filed updates to Schedule 136 Oregon Community Solar Program Cost Recovery Mechanism Update in Advice No. 20-09. The Commission permanently suspended PGE's Advice No. 20-09 at the May 19, 2020 Public Meeting.

This compliance filing was made pursuant to OPUC Order No. 20-173. This approved filing uses the allocation methodology already included in Schedule 136 to recover start-up costs, but includes long-term opt out and new load direct access customers at the same price as the cost of service equivalent schedule. It also added a special condition to specify that the allocation methodology related to payments for bill credits is yet to be determined. Lastly, title of Schedule 136 is updated.
